## **Dermapen Advanced Skin Needling (Collagen Induction Therapy)**

- Dermapen advanced skin needling treatments are performed by our accredited Dermapen therapists only. Rest assured your skin is in safe, experienced hands. Our professionals can also consult with you regarding other anti-aging, rejuvenating and skin improvement therapies.
- Dermapen consultations are free of charge, if you have any questions or queries, book a consultation with one of our Dermapen therapists.
- Our Skin Needling treatments are performed with a state-of-the-art skin needling/ stamping machine, which allows penetration on a 90 degree angle to the skin, which is much safer and more efficient than using needle rollers. A topical local anaesthetic is applied to your skin prior to treatment. The Dermapen treatments actually build up and strengthen your skin by encouraging your skin to produce new cells. This makes it so effective and gentle compared to other ablative and invasive skin procedures.
- Dermapen needling face treatment \$300 per session. Depending on your concern, a course of between 3-8 sessions will be recommended. This treatment is not recommended as a “one off” treatment.
- Dermapen needling hand rejuvenation treatment \$115. Recommended for pigmentation reduction, and improving skin texture and tone. As above, this is recommended as a series of treatments.
- Dermapen face and hand package - commit to, and book in for three dermapen face treatments, and receive a dermapen hand rejuvenation treatment, complimentary at the time of each treatment. That's \$115 of bonus treatments per session.
- Dermapen ultimate skin rejuvenation package - Pre-pay a package of four dermapen face sessions (\$1180) and receive your fifth face treatment for free, save \$300.

## **Radio Frequency Non-invasive face & neck lift**

- Radio Frequency is a great way to lift and tighten the skin on the face and neck, while being a non-invasive treatment. It works wonderfully with the LED skin rejuvenation treatment. Both methods heat the skin deep within the dermis to encourage collagen and elastin production, and regenerate skin tissue.
  - Radio Frequency face & neck lift single session \$99
  - Package of 8 RF face and neck lift sessions \$645

## LED Light Therapy

- LED skin rejuvenation was originally designed by NASA for astronauts in space, to assist the skin with healing and growing new cells, as the astronauts were not exposed to our usual conditions on Earth. LED uses different coloured lights which each have a different effect and penetrate to unique wavelengths within our skin. It can be used for preventative scarring, ie injury and accidents, surgical scars such as caesarean, to promote healing much quicker and reduce the appearance of scars. As it also penetrates and heats deep within the dermis of the skin, it stimulates new cell growth and collagen and elastin induction. This is a great way to step up to advanced anti-aging skin treatments, without being invasive.
- LED casual session on face or body 20 mins \$50
- Non-invasive anti-aging package - a Radio Frequency non-invasive face lift treatment and an LED deep rejuvenation session. Recommend six sessions for best results. \$127 per session.

## Body sculpting

- Body sculpting using our Radio Frequency machine can help treat those stubborn areas of cellulite and body fat. It encourages your body to metabolise the fat quicker, and it can shrink the fat cells also. Body sculpting can be purchased as casual sessions, however for best results a series of 8 – 10 sessions are recommended. Please note session times may vary, and are dependent on the size and location of the treatment area.
- Body session up to 40 minutes \$92
- Body session up to 55 minutes \$122
- Body sculpting 8 x 40 minute sessions - pre-paid \$625
- Body sculpting 8 x 55 minute sessions - pre-paid \$825
